

## NATIONAL ACCREDITATION PROGRAM FOR BREAST CENTERS

### Froedtert & The Medical College of Wisconsin Breast Care Center Froedtert & The Medical College of Wisconsin

The Froedtert & The Medical College of Wisconsin Breast Care Center provides women with comprehensive education, screening, diagnosis and treatment services for benign breast disease and breast cancer. Located within the Froedtert & The Medical College Clinical Cancer Center, the Breast Care Center features 12 exam rooms with additional space for diagnostic equipment, as well as growth capacity for new imaging units. Using the latest imaging technology, radiologists are able to inspect breast abnormalities with precision and accuracy. In addition to screening mammograms, the Froedtert & The Medical College of Wisconsin Breast Care Center offers comprehensive diagnostic mammography, 3-D imaging with ultrasound, and MRI studies to better identify suspicious findings. Women who have been diagnosed with breast cancer receive all their physician consultations, diagnostic procedures, follow-up appointments and clinical support in one place. The care team includes surgical oncologists, plastic surgeons, medical oncologists, radiation oncologists, radiologists, pathologists and other caregivers who all focus on breast cancer. Breast Care Center physicians offer the full range of cancer treatments, including breast-conserving and breast reconstruction options. Additional services include: Breast Cancer High Risk Assessment, available for women who have a family history of the disease or are concerned about their risk; the Breast Cancer Cognitive Evaluation Clinic, which helps women face cognitive problems related to breast cancer or breast cancer treatment. For questions or to make an appointment related to breast cancer, please call 866-680-0505. To learn more about our Breast Cancer Program and physicians, please visit [froedtert.com/cancer](http://froedtert.com/cancer). For a mammography appointment, please call 800-272-3666.
