

## NATIONAL ACCREDITATION PROGRAM FOR BREAST CENTERS

### Marion Louise Saltzman Women's Center Albert Einstein Medical Center

Einstein Medical Center is a tertiary care and teaching hospital situated in North Philadelphia. Our mission is: with humanity, humility and honor, to heal by providing exceptionally intelligent and responsive healthcare and education to as many as we can reach. In 1997, AEMC opened the Marion Louise Saltzman Women's Center (MLSWC), a facility that offers a complete range of breast healthcare services for women of all ages. In this comfortable facility, services offered include comprehensive breast evaluations mammography, breast ultrasounds, stereotactic biopsies, ultrasound guided biopsies, MRI and MRI guided biopsies, surgical biopsies, bone density studies and genetic risk assessment. We offer grant funded charity care to those who have no health insurance. Our team of specialists meet weekly in a multidisciplinary breast conference, where breast surgeons, medical oncologists, radiologists, radiation oncologists, pathologists, nurses and support staff, discuss the care plans for each new patient. Our Cancer Program has been fully accredited by the Commission on Cancer of the American College of Surgeons and we were recently selected to join the National Cancer Institute Community Cancer Centers Program (NCCCP), a pilot program of the NCI designed to bring the latest scientific advances and the highest level of innovative and integrated, multi-specialty care to a much larger population of cancer patients. With an active social service program, psychiatric services, and dedicated plastic surgeons performing immediate and delayed reconstruction, our breast program is composed of a group of very committed individuals whose goals are aligned in the attempt to provide the best care to our patients.
